The medium we are using is watercolor paint.
The technique is called wet-on-wet: wet paint on damp paper.

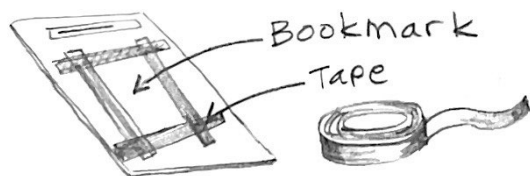

1. Set yourself up with **4** cool colors:

light blue
dark blue
green
purple

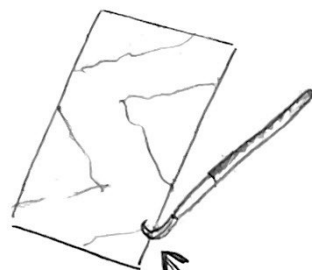

And white acrylic paint

2. Tape your bookmark down to the table or clipboard on all sides. Try to tape evenly

3. Wet your bookmark with just water

4. Start with light blue, using your paintbrush, start dabbing the paint in a zig zag motion down the paper. Slowly add in the green, dark blue and purple, layering the paint.

5. Lastly, use the tiny brush to add white acrylic
